THE LIGHT TWIN THAT DOES IT ALL

## CESSNA 310R

### *THE LIGHT TWIN THAT DOES IT ALL*

Chosen by generations of successful businessmen and women, the Cessna 310 was Cessna's first aircraft designed for 'doing deals', visiting clients in person and getting the job done fast..

Today, nothing has changed. This aircraft is unbeatable value, and allows you to see more clients, visit family and travel to the furthest reaches of our country with ease.

Our fleet of Cessna 310's are some of the newest examples in the country, '310R' models, which are well known for their extremely pleasant flying characteristics and massive cargo capacity.

Recently refurbished inside and outside, our entire aircraft fleet presents like new,

with forward facing cloth seats and window shades for our passengers comfort all year round. Painted in classic white and blue, our aircraft stand out on the tarmac, and are a familiar face for those around the airport. We're regulars!

These aircraft can fly into remote areas, including gravel and grass airstrips, as well as the largest of international ports at any time of day or night. This makes them ideally suited for business travelers who wish to fly exactly where they need, at the time they choose, in total comfort.

It's the light twin that does it all!

THE LIGHT TWIN THAT DOES IT ALL

# TECHNICAL SPECS

## CRUISE SPEED

170kt | 315 km/h

## ALTITUDE

10,000 ft | 3000m

## RANGE

540nm | 1,000km

## FLIGHT CREW

1 Pilot

## AIRCONDITIONING

No

## PRESSURISED

No

## TOILET

No

# INTERIOR

Cessna 310R

## **CLASSIC & COMFORTABLE**

Everyone prefers to travel forwards - in a 310, it's the only way...

Each of our aircraft has been recently refurbished with a classic grey cloth interior. All seats are forward facing, with individual arm rests, seat belts, curtains, reading lights and air vents.

Maximum seating capacity is five passengers with one pilot.

Wing lockers allow plenty of space for luggage, including bulky items like golf clubs, camping equipment or skis.

## WHAT'S ON THE WING?

---

### *Cessna 310R*

We get asked all the time, what are those big things on the end of the Cessna 310 wings?

Fuel tanks!

One of the best things about the Cessna 310 is its ability to carry fuel. A LOT of fuel. With two passengers on board and full tanks, a Cessna 310 can fly for approximately 1000km before requiring a fuel stop...

If and when fuel stops are required, Air Link pilots allow for approximately 30 minutes on the ground. While they refuel, you're free to stretch your legs and use the airport facilities.

All flights carry the CASA required 45 minute fuel reserves, plus 15% contingency fuel and weather holding fuel for your safety.
