PRIVATE JET LUXURY AT PROP PRICES

CESSNA CITATION

PRIVATE JET LUXURY AT PROP PRICES

Private jets are not just for the rich and famous. They're not for show-offs, not for the high rollers, and not for the frivolous. They're for you. Because you choose to value time, safety and comfort.

They're not even that expensive anymore!

As a business tool, these aircraft are an incredible asset. They allow you to reach anywhere on the east coast of Australia, and be home in time for dinner; but their speed is not the only advantage. Safety is significantly increased, and we fly above the weather, giving the smoothest ride.

If you're traveling for leisure, choosing the Citation is an absolutely unforgettable experience for you and your family.

It's silky smooth in flight, quiet enough to hear a whisper, and maximises your time away from work.

The interiors in these aircraft are simple and elegant, appointed in cream leather with business tables and USB power for charging devices while on the go.

Outside, you'll find conservative white paintwork which accentuates the lines of these gorgeous aircraft. We love hearing our passengers say they look fast even while sitting on the tarmac...

These aircraft offer private jet luxury, at prices comparable with propeller driven aircraft. Why choose anything else?

INTERIOR

CESSNA CITATION MUSTANG

EVERYTHING A PRIVATE JET SHOULD BE...

Inside the Citation Mustang, the difference between this and our propeller driven aircraft becomes clear.

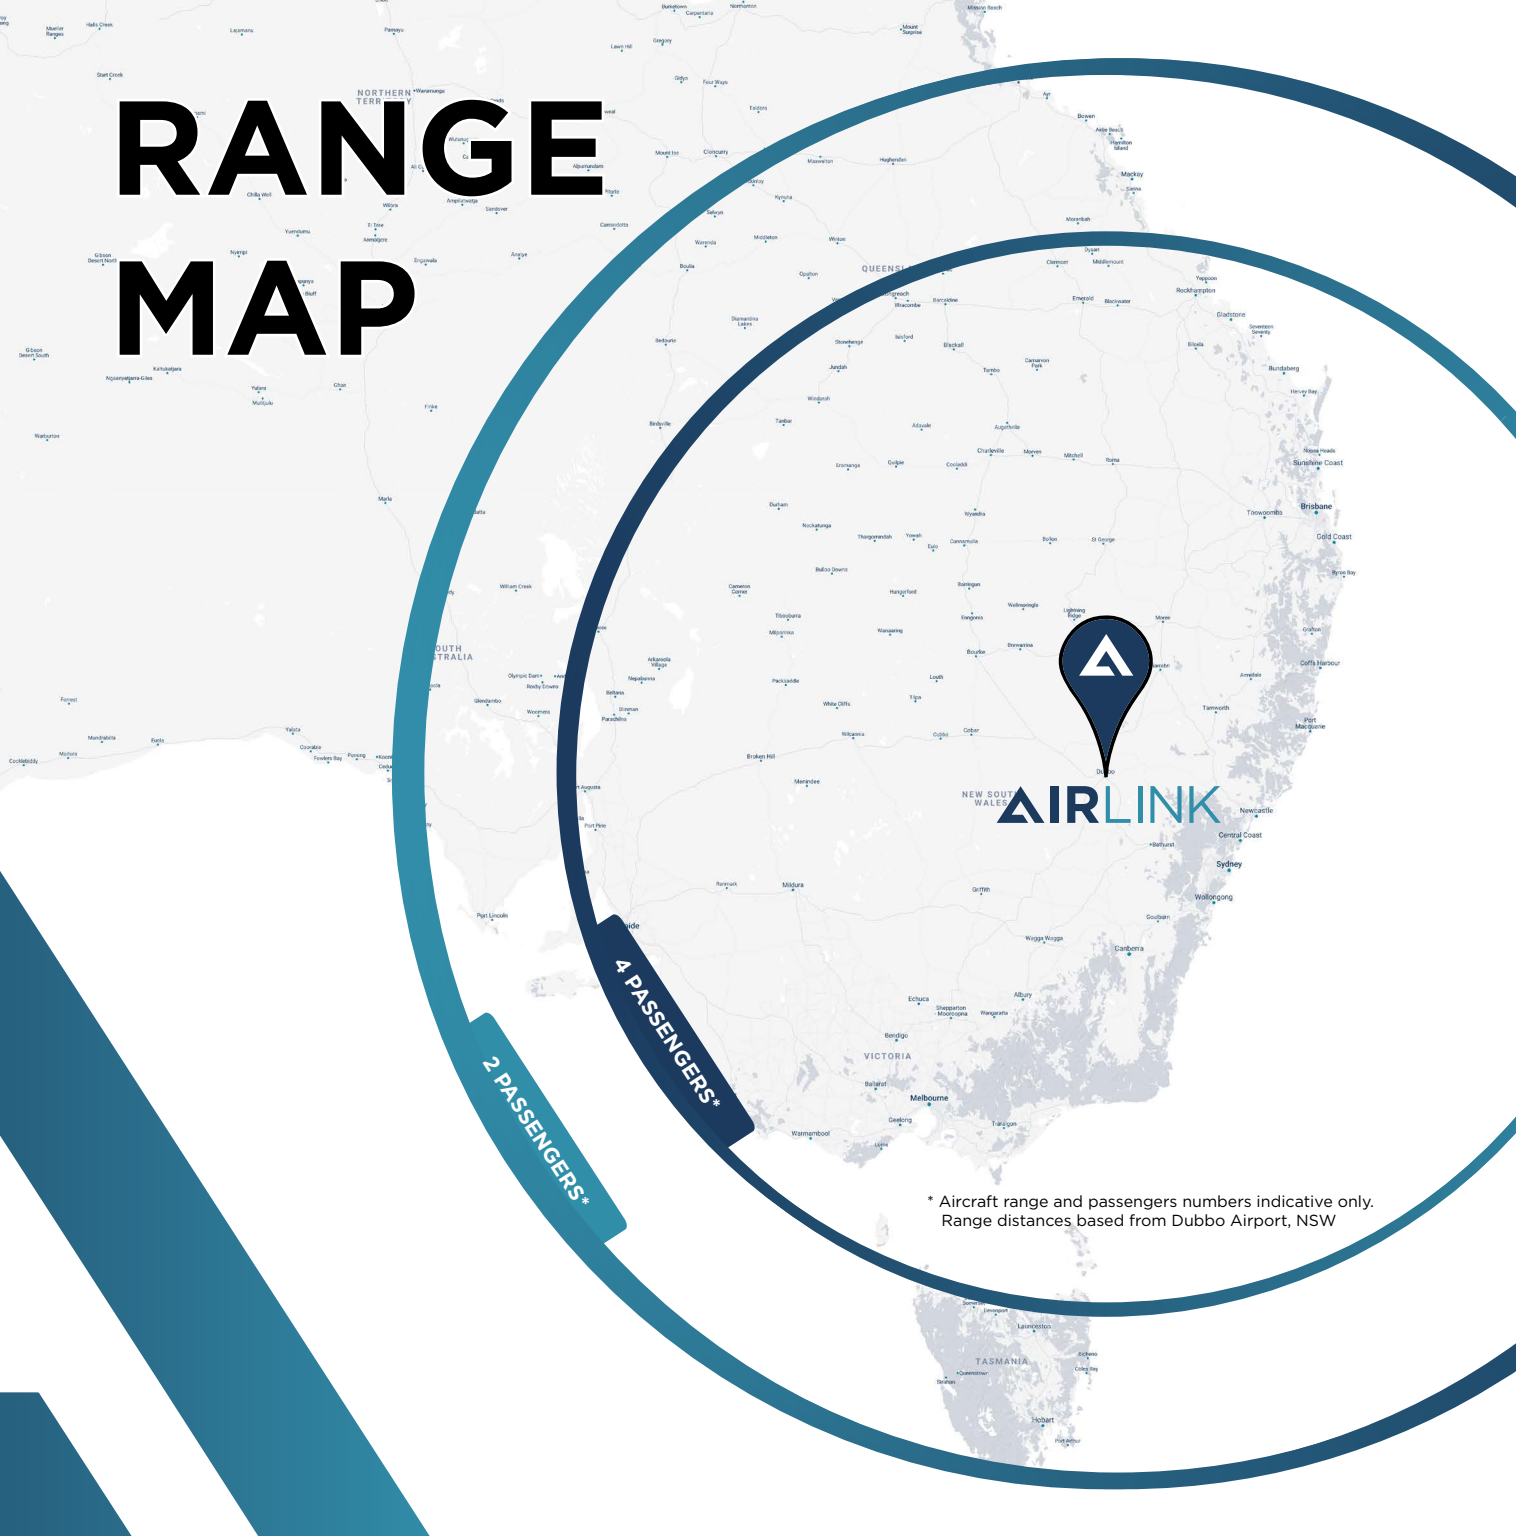

These aircraft are appointed in cream leather throughout, with seats arranged in a club style. (Two forward facing seats and two rear facing) Each seat has individual arm rests, seat belts, window shades, reading lights and air conditioning vents.

Maximum seating capacity is five passengers with one pilot. Large cargo compartments in the nose and tail will accept up to four large suitcases, plus carry on baggage.

DON'T LIKE SMALL PLANES? YOU'LL LOVE THIS ONE.

Cessna Citation Mustang

First time clients tell us regularly how smooth the Mustang feels in flight, and during landing.

If you, or someone in your group is feeling a little apprehensive about flying on board a small aircraft, a flight on board this one will calm their worries. Designed to provide the smoothest ride possible, Cessna created a small private jet which quite literally feels like you're riding on top of the clouds...

That awful ear-popping feeling you're used to on the airlines is also dramatically reduced in the Citation, thanks to a state of the art automatic pressurisation system & incredibly low cabin altitudes during cruise. That's why our partner company AirMed choose the same jets for their medical transfers.

Try it out! The difference is clear.
